

Hello,

Regarding your job ad, I am working with Perl since 1998 as a self-hired.

My latest work is a Perl Framework Nile still in early release on CPAN and on github <https://github.com/mewsoft/Nile>, it is a visual web app framework Separating code from design multi lingual and multi theme.

I work as self-hired for my online business at <http://www.mewsoft.com> as a developer for Auction software, classifieds software, pay per click / impression software, forums, etc. and I am very familiar with ecommerce and web applications.

I'd be glad to work in a team environment in your company. I work also with PHP, JavaScript and jQuery framework plus HTML, CSS, MySQL & MSSQL.

I have also a RHCSA and RHCE training and have a good experience with Linux and *nix systems and server issues.

I also have a start for Java and Mobile Applications.

My very short C.V can be reviewed here:

<http://cv.mewsoft.com/CV.pdf>

I'd be glad if you reply that you received this email.

I am ready to move to any location in the world.

I am currently located in Cairo, Egypt but I studied my Ph.D. in USA between 1998 and 2003.

Thank you

Ahmed Amin Elsheshtawy
